测试记录与证据

测试环境：Ubuntu 20.04，FISCO BCOS 2.11.0，4 节点本地链。

合约地址：0xe90a32b9d1abe00013c2bc447446aa6fe2daf8a5

测试用例 1：存证功能

操作：调用 createEvidence 传入哈希 0x1111...

结果：交易成功（status: 0x0）。

```
[group:1]> call CertificateEvidence 0xe90a32b9d1abe00013c2bc447446aa6fe2daf8a5 verifyEvidence 0x1111111111111
1111111111111111111111111111111111111111111111111111
---------------------------------------------------------------------------------------------
Return code: 0
description: transaction executed successfully
Return message: Success
---------------------------------------------------------------------------------------------
Return value size:3
Return types: (ADDRESS, UINT, BOOL)
Return values:(0x5bff9e15fdaee1c79058f41dbc2238b1eeb38b69, 1794073098856, true)
---------------------------------------------------------------------------------------------
```

测试用例 2：验证存在的证书

操作：调用 verifyEvidence 传入哈希 0x1111...

结果：返回 return values（0x5bff..., 179407..., true)。

```
[group:1]> call CertificateEvidence 0xe90a32b9d1abe00013c2bc447446aa6fe2daf8a5 verifyEvidence 0x1111111111111
1111111111111111111111111111111111111111111111111111
---------------------------------------------------------------------------------------------
Return code: 0
description: transaction executed successfully
Return message: Success
---------------------------------------------------------------------------------------------
Return value size:3
Return types: (ADDRESS, UINT, BOOL)
Return values:(0x5bff9e15fdaee1c79058f41dbc2238b1eeb38b69, 1794073098856, true)
---------------------------------------------------------------------------------------------
```

测试用例 3：验证不存在的证书（防伪测试）

操作：调用 verifyEvidence 传入哈希 0x2222...

结果：返回 return values（..., false)。

```
[group:1]> call CertificateEvidence 0xe90a32b9d1abe00013c2bc447446aa6fe2daf8a5 verifyEvidence 0x1111111111111
1111111111111111111111111111111111111111111111111111
---------------------------------------------------------------------------------------------
Return code: 0
description: transaction executed successfully
Return message: Success
---------------------------------------------------------------------------------------------
Return value size:3
Return types: (ADDRESS, UINT, BOOL)
Return values:(0x5bff9e15fdaee1c79058f41dbc2238b1eeb38b69, 1794073098856, true)
---------------------------------------------------------------------------------------------
```
